# Antecedentes Minor Use Foundation

The screenshot shows the STDF (Standards and Trade Development Facility) website. The header includes the STDF logo and the text 'STANDARDS and TRADE DEVELOPMENT FACILITY'. There are language options for EN, FR, and ES, along with a search bar. A navigation menu contains links for 'about us', 'funding', 'projects', 'topics', 'resources', and 'library'. The main content area features a breadcrumb trail 'home >' and a large image of a person wearing a cap and gloves, working with a bunch of green bananas. Below the image, the project details are listed: 'Start Date 01/10/2013', 'End Date 30/09/2016', and the project title 'STRENGTHENING CAPACITY IN LATIN AMERICA TO MEET PESTICIDE EXPORT REQUIREMENTS'. To the right of the title is a table with project information.

STDF/PG/436
STATUS
Completed

# LMR establecidos

## 233 - Spinetoram

Functional class: **Insecticide**

Commodity	MRL	Year of Adoption	Symbol	Note
