

# Nomination and Priority Selection Process

Michael Braverman, Ph.D.  
IR-4 Project

Presented May 17, 2022

Latin America and the Caribbean Regional  
Priority Setting - Inception Workshop

Minor Use Foundation

# 2022 Latin America and the Caribbean Regional Priority Setting - Inception Workshop

<https://minorusefoundation.org/events/2022-lac-psw-submit-priorities/>

Goal- Develop a list of top pest management priorities for Latin America and the Caribbean.

A priority is a crop-pest combination.

## Overall Process

1. Nominate existing priorities or submit new priorities.
2. Vote for top priorities
3. Ranking of priorities
4. Workshop to discuss priorities

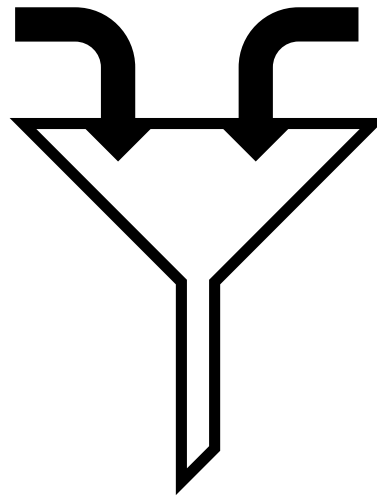

# 2022 Latin America and the Caribbean Regional Priority Setting - Inception Workshop

<https://minorusefoundation.org/events/2022-lac-psw-submit-priorities/>

Goal- Develop a list of top pest management priorities for Latin America and the Caribbean.

A priority is a crop-pest combination.

Nominate existing priorities  
from GMU Workshop list

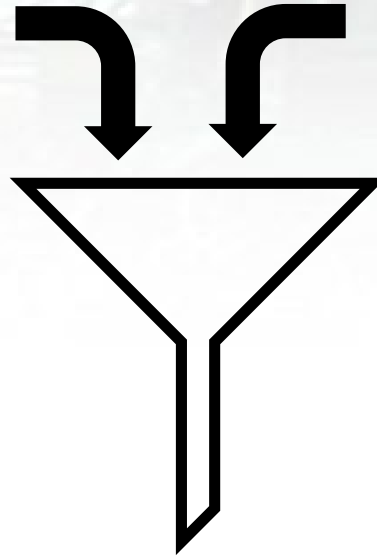

Nominate new priorities

Develop a condensed, but comprehensive list of priorities

Nominate existing priorities  
from GMU Workshop list

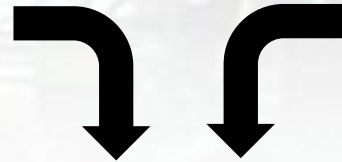

Nominate new priorities

Develop a condensed, but comprehensive list of priorities

- IMPORTANT: 1. Existing priorities will not be considered unless they are nominated  
2. Deadline June 14, 2022

# 2022 Latin America and the Caribbean Regional Priority Setting - Inception Workshop

Nominate existing priorities  
from GMU Workshop list

Nominate new priorities

Considerations when nominating existing priorities or submitting new priorities.

1. Focus on crop-pest combinations with limited control options, but there are potential solutions (Pesticides that control the pest).
2. Focus is on horticultural/minor crops rather than agronomic crops.
3. Focus on solutions that do not currently have a CODEX MRL on that crop.
4. Focus on situations in which currently registered products are causing trade issues or have pest resistance problems.

1. Nominate existing priorities or submit new priorities.

**NOMINATE EXISTING PRIORITIES** →

**SUBMIT NEW PRIORITIES** →

The image shows two screenshots of the Minor Use Foundation's nomination forms. The top screenshot is titled "Nominate Existing Priority" and includes a "View Current GMUPL" button. Below the title, there is a paragraph: "After nominating an existing priority, you will have the option to nominate another existing priority or submit a new priority. If you **ONLY** want to submit a new priority, please [click here](#) to access the new priority form." The form itself is titled "LAC Regional Workshop 2022 Priority Nomination" and "Nominate existing priorities of interest to your country". It has a "Your Information" section with fields for "Name" (split into "First Name" and "Last Name") and "Email". The bottom screenshot is titled "Submit New Priority" and is titled "LAC Regional Workshop 2022 New Priority" with the instruction "Submit a new priority". It also has a "Your Information" section with fields for "Name" (split into "First Name" and "Last Name") and "Email". Both forms include the Minor Use Foundation logo and a placeholder email "example@example.com".

## NOMINATING EXISTING PRIORITIES

<https://minorusefoundation.org/events/2022-lac-psw-submit-priorities/>

1. Nominate existing priorities.

**A. FIRST SEE LIST OF EXISTING PRIORITIES and write down the ID Number(Found in column A)**

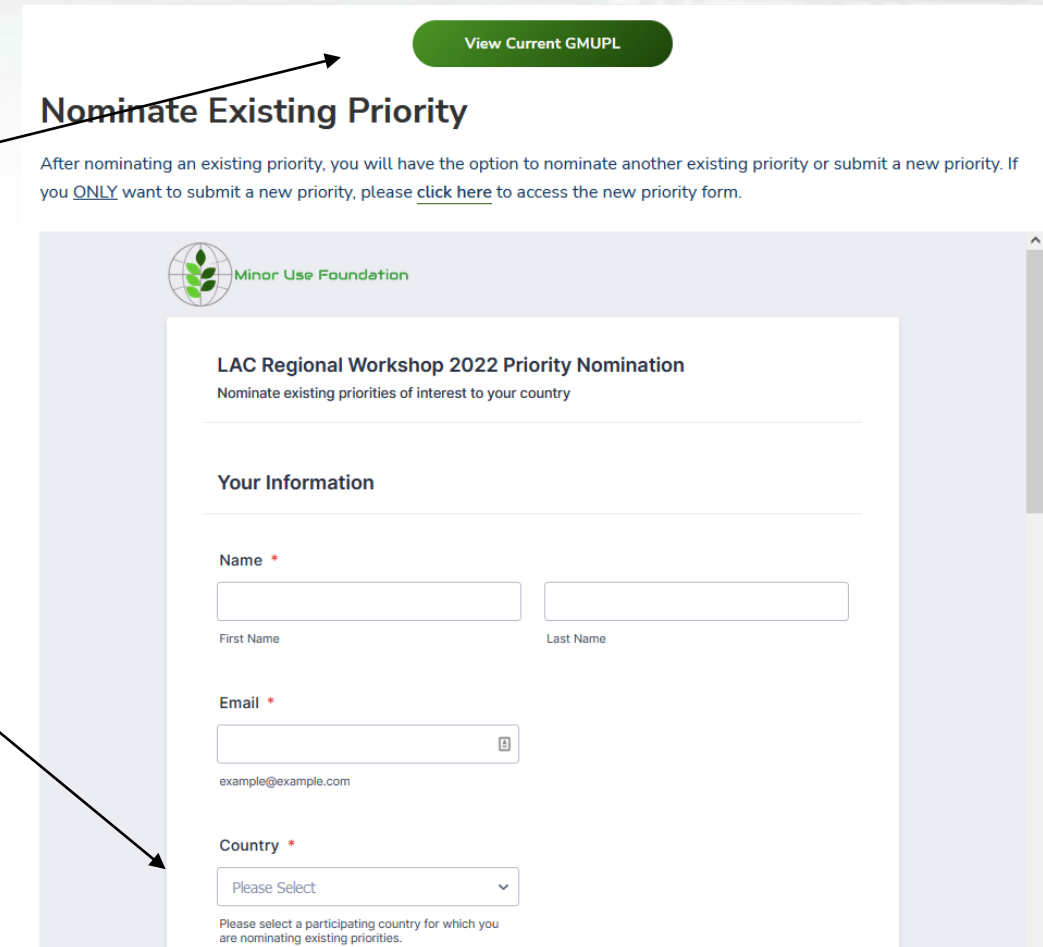

**B. ENTER NAME, EMAIL, SCROLL DOWN AND ADD COUNTRY**

**IMPORTANT: Existing priorities will not be considered unless they are nominated**

[View Current GMUPL](#)

### Nominate Existing Priority

After nominating an existing priority, you will have the option to nominate another existing priority or submit a new priority. If you ONLY want to submit a new priority, please [click here](#) to access the new priority form.

## NOMINATING EXISTING PRIORITIES

<https://minorusefoundation.org/events/2022-lac-psw-submit-priorities/>

### 1. Nominate existing priorities.

C. ENTER ID Number  
D. CLICK THE BOX  
And you should see the  
crop and pest you want,  
automatically filled in the  
boxes below

[View Current GMUPL](#)

### Nominate Existing Priority

After nominating an existing priority, you will have the option to nominate another existing priority or submit a new priority. If you ONLY want to submit a new priority, please [click here](#) to access the new priority form.

**Priority Information**

To nominate existing priorities, it is necessary to understand the existing unique ID that is assigned to the current list of priorities. The unique ID is used by our system to pull the associated crop, target, cropping system, climate and discipline combination to auto-populate the information on the nomination form. Please carefully review the list of existing priorities and take note of the unique IDs you want to nominate. Once you enter the existing priority unique ID in the field below, please click the button to fill the other fields on the form and confirm the priority.

Existing Priority ID \*

Crop EN common name

  
This field will auto fill based on the Priority ID indicated above.

## NOMINATING NEW PRIORITIES

<https://minorusefoundation.org/submit-new-priority/>

1. Submit new priorities.

C. Scroll down and click Select crop

D. Drop down menu appears and click on the crop you want to nominate.

Scroll to the bottom of the list and select "other" to enter a crop not listed.

### Submit New Priority

#### Required Priority Information

Enter the required information for the new priority. The priority will be added to the GMUPL spreadsheet. Optional information such as Codex Crop code can be entered in the section below

Crop EN common name \*

Select Crop

- Select Crop
- Adzuki beans
- Alfalfa
- All crops
- All vegetables
- Almond, sweet
- Amaranth
- Amber
- American cranberry
- Apiculture (honeybee hives)
- Apple
- Apricot
- Arrow root
- Artichoke
- Asia salad
- Asparagus
- Assorted tropical and sub-tropical fruits – inedible peel
- Aster
- Avocado
- Baby leafs

the list of options and select "other" to enter a new crop.

of the list of options and select "other" before entering a new target.

## NOMINATING NEW PRIORITIES

<https://minorusefoundation.org/submit-new-priority/>

1. Submit new priorities.

J. Click I am not a robot

K. Click Review before submit.

The screenshot shows a web form titled "Submit New Priority" with a "View Current GMUPL" button at the top right. The form contains a "Potential Solution type" dropdown menu with "Select Solution" selected. Below this is a text instruction: "You will be prompted to nominate an existing Priority or have the option to add another new Priority after clicking submit." A reCAPTCHA section follows, with the text "Please help us stop spam submissions \*". The reCAPTCHA widget shows a green checkmark and the text "I'm not a robot". At the bottom right of the form is a "Review Before Submit" button. Two arrows point from the text on the left to the reCAPTCHA widget and the "Review Before Submit" button.

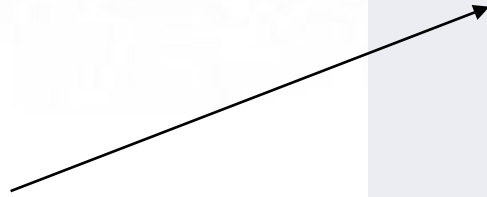

# 2022 LAC Regional Priority Setting - Inception Workshop

## NOMINATING NEW PRIORITIES

<https://minorusefoundation.org/submit-new-priority/>

1. Submit new priorities.

L. Check if the information came out correct.

**Crop EN common name \***  
Common coconut palm

Identify single crops, not crop groups. Scroll to the bottom of the list of options and select "other" to enter a crop not listed. Please check the list carefully before entering a new crop.

**Target EN common name \***  
Nematodes

Identify single targets, not target groups. Scroll to the bottom of the list of options and select "other" to enter a target not listed. Please check the list carefully before entering a new target.

**Field, Greenhouse \***  
Field

Select Field or Greenhouse. If you want to submit a priority for both, please make an entry for each cropping system.

**Climate zone \***  
Temperate/Tropical

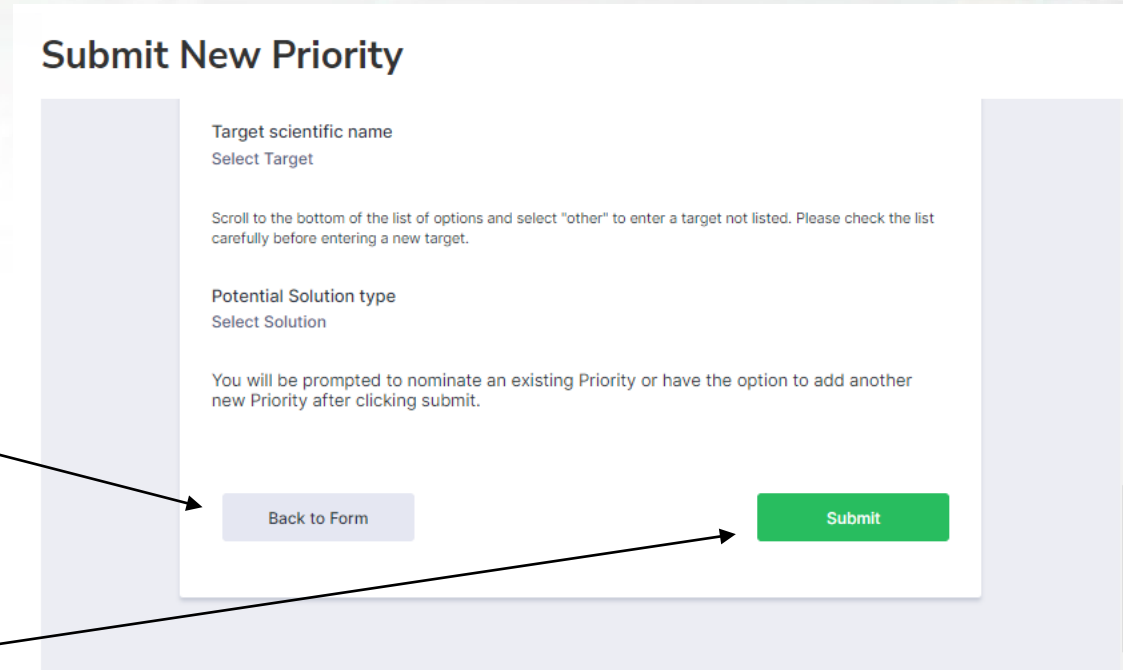

# 2022 LAC Regional Priority Setting - Inception Workshop

## NOMINATING NEW PRIORITIES

<https://minorusefoundation.org/submit-new-priority/>

1. Submit new priorities.

Anything incorrect? Make changes by clicking Back to Form before submitting.

The screenshot shows a web form titled "Submit New Priority". It contains the following sections:

- Target scientific name**  
Select Target
- Scroll to the bottom of the list of options and select "other" to enter a target not listed. Please check the list carefully before entering a new target.
- Potential Solution type**  
Select Solution
- You will be prompted to nominate an existing Priority or have the option to add another new Priority after clicking submit.

At the bottom of the form are two buttons: "Back to Form" (light blue) and "Submit" (green). Two arrows point from the text on the left to these buttons: one from "Anything incorrect? Make changes by clicking Back to Form before submitting." to the "Back to Form" button, and another from "M. Click Submit." to the "Submit" button.

M. Click Submit.

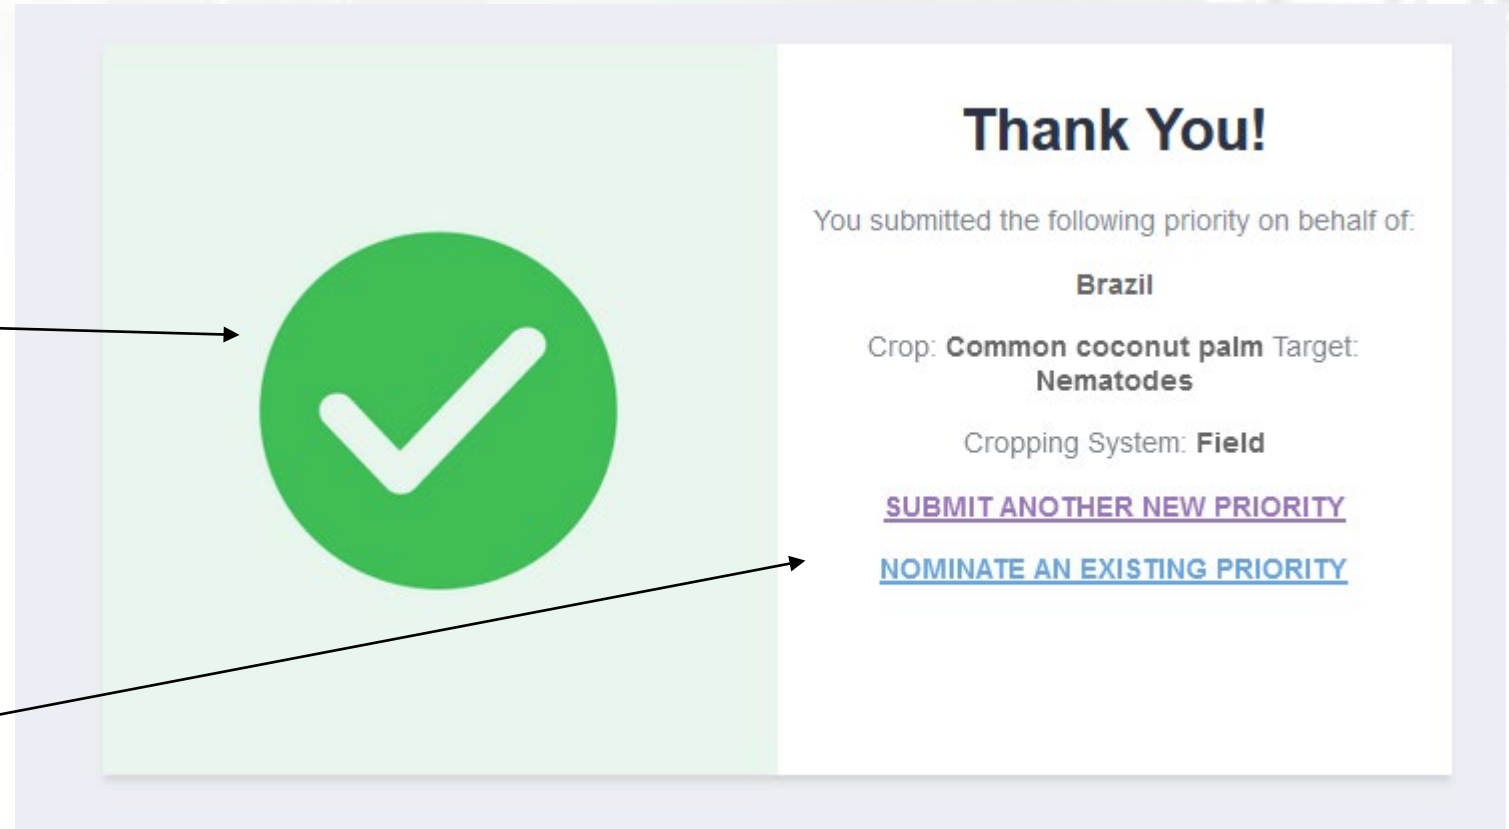

# 2022 LAC Regional Priority Setting - Inception Workshop

## Ranking Priorities

Voting between June 28 (After cumulative list sent out) and due by July 26th

**Votes** 1 to 5

Priority 1= 5 points (Highest)

Priority 2= 4 points

Priority 3= 3 points

Priority 4= 2 points

Priority 5= 1 point (Lowest)

Priority Points X Number of Countries voting for that priority = Total Points

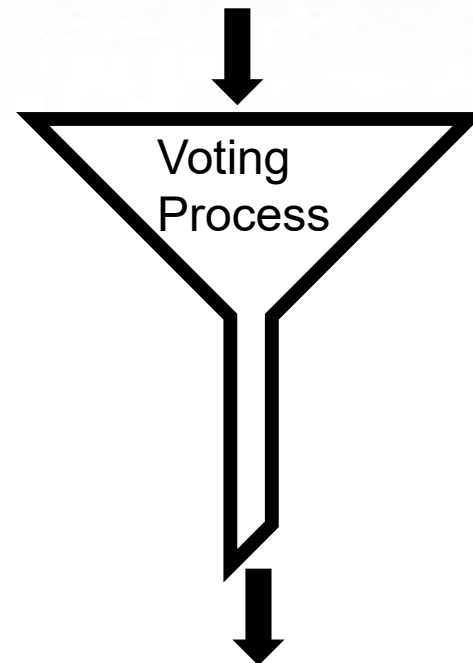

Priorities will be divided into 2 groups (Fruit and Nut) and (Agronomic, Vegetables and Herbs) ranked based on the total points

# 2022 LAC Regional Priority Setting - Inception Workshop

## Ranking Priorities

Voting between June 28 (After cumulative list sent out) and due by July 26th

Cumulative list of nominated priorities

Focused list of ranked priorities

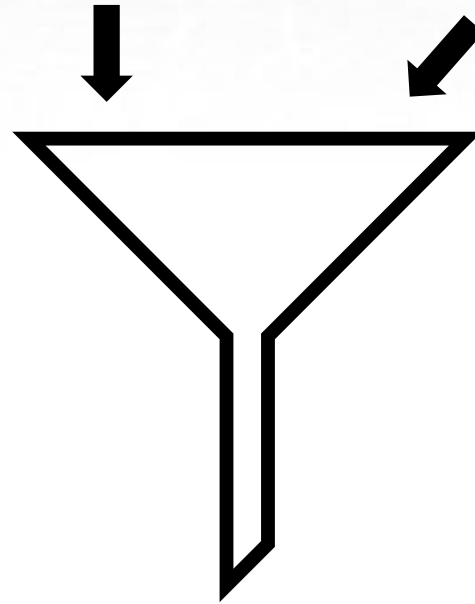

# 2022 LAC Regional Priority Setting - Inception Workshop

## Ranking Priorities

List of ranked priorities will be distributed on August 2<sup>nd</sup>.

Focused list of ranked priorities

**Input from industry- Potential Solutions.**  
(There will be an online system for registrants to nominate potential solutions)

Discussion of merits of Priorities and Solutions at the Workshop September 26th

# 2022 Latin America and the Caribbean Regional Priority Setting - Inception Workshop

## Discussion of merits of Priorities and Solutions at the Workshop September 26th

1. Focus on crop-pest combinations with limited control options, but there are potential solutions(Pesticides that control the pest).
2. Focus is on horticultural/minor crops rather than agronomic crops.
3. Focus on solutions that do not currently have a CODEX MRL on that crop.
4. Focus on situations in which currently registered products are causing trade issues or have pest resistance problems.
5. Avoid solutions which are already a company objective.
6. How many solutions are already registered on other crops in the countries seeking access?
7. How many countries do the registrants support a registration and label?
8. Are there residue data for any solutions already available that only require only a few trials to complete a submission package?
9. Are there sufficient, robust efficacy data available and applicable to all interested countries?
10. Is the solution a newer more effective product that will replace older chemistry and make it through dietary risk.

- **Do these represent sufficient grounds to justify a change in the rankings?**

# 2022 Latin America and the Caribbean Regional Priority Setting - Inception Workshop

<https://minorusefoundation.org/events/2022-lac-psw-submit-priorities/>

Due date for nominations June 14, 2022

Send out cumulative list of nominated and new submissions June 28th

Existing and new priorities will be voted on between June 28 and July 26th

Rankings sent to participants August 2<sup>nd</sup>

Hold Latin American Priority Setting Workshop- September 26<sup>th</sup>, 2022

Ongoing- Determine potential solutions based on the top priorities, registrant interest and placement of residue studies. Conduct residue studies and pursue CODEX MRLs.
